To whom it may concern

22 July 2022

Re sale of Rank Brothers Ltd (Subcontract machining)

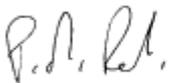

I have decided to retire shortly and, after some deliberations, have decided that it would be appropriate to sell Rank Brothers Ltd as a going concern. The business was started in 1957 by my father, Edmund Rank, and my uncle, Albert Rank as a village garage and machine shop. I have been here since 1975 and during this time have built up an excellent relationship with all our customers and would like to thank each and every one for the loyalty you have shown us over the years.

We have received an offer from High Precision (Cambridge) Ltd (Contact Tim Clarke) to purchase all our workshop equipment and the precision machining side of the business. Some of you may already use them for manufacturing parts and so will be familiar with them already. They will be purchasing all our machines, the programmes and jigs and so will be able to quote for any parts that we have previously supplied to you.

We are planning to cease manufacturing on the 19th of August giving everybody at least four weeks' notice. I'm hoping this will allow you time to get quotes during the transition period. I will still be available, through High Precision Ltd, for any help, advice or assistance after that date, for a limited period.

Once again, thank you very much for the support you have given us over the years and the great friendships, we have built up. I'm sure I will miss all of this during the transition period but look forward to relaxing and having more time to pursue all my interests.

Yours faithfully

Peter Rank
